

SYDERAL SWISS designs and produces on-board electronic equipment for space applications, with a particular focus on competitive products for new space markets. We have participated in more than 50 successful missions, for customers such as ESA, NASA, Thales Alenia Space and Airbus. Our extensive references in space programs has made us one of the main electronic equipment suppliers in Europe for satellite payloads and platforms.

To develop our innovative products, SYDERAL SWISS has end-to-end engineering capabilities in digital and analog electronics design as well as embedded software development, and we produce our electronic equipment in our clean-room production facilities, qualified to space standards. SYDERAL SWISS also has a subsidiary in Poland, SYDERAL Polska Z.O.O., which offers electronic engineering services for space applications.

In order to reinforce our team, we are searching for a:

Technical Manager

Your mission:

Responsible for the technical specifications and development of our electronic equipment and products according to customer requirements.

Your Activities:

- Manage the overall product definition phase and coordinate technical team activities;
- Define product architecture in collaboration with technical specialists;
- Define subsystem specifications in collaboration with engineers;
- Technical point of contact for customer and suppliers within the project;
- Accountable for the development to meet customer requirements within quality and cost discussed with the project manager and approved by top management;
- Manage the creation of the whole set of documents of the project;
- Close collaboration with the project manager and technical specialists;

Your profile:

- Master degree in micro-technics, electronics, robotics or equivalent;
- Significant experience in the space, car, medical or aircraft industry;
- Excellent knowledge of hardware design and/or software development and/or IC design;
- Excellent leadership, flexible and persistent;
- Excellent team player;
- Mastering Microsoft Office tools, Altium Designer, Matlab, simulation tools, etc.;
- Fluent in English speaking and writing; other languages, in particular French, is a plus.

Are you interested in joining our team? Please send us your complete documents (CV, application letter, copy of work certificates and diplomas) at:
